

Clinical Experiences Subcommittee Meeting
September 26, 2012
3:15-3:50 U-High Library Conference Room

Members Present: Steve Evans, Jean Gorski, Vickie Graziano, Vicki Jacobs, Erin Mikulec, Suzie Thetard

The committee decided that the C & I minute at the next faculty meeting will address the Lesson Plan Analysis Form. Vicki Jacobs will present the information.

There will be a luncheon for the C & I 216 faculty and the U-High faculty at the institute day on October 5. The goal of this luncheon is to improve communication between these two groups, and will hopefully be the first of several of these meetings. Jean will try to get some questions from the U-High faculty that the 216 faculty can address.

The committee discussed the results of last semester's survey of the 216 students. There was discussion about changing some of the questions, so that we are getting more useful feedback from the 216 students.

The committee also received the pilot version of a new Clinical Experience Assignment and Rubric. The committee will look over the document and discuss at the next meeting.
